1. Forwarded under separate cover is one Receiver, RR-33, from our stock. It is requested that the receiver not be dismantled or taken apart for detailed examination as our stock level is down to 3 receivers. For this reason we would appreciate an early return of the unit.

2. Attached hereto is instructional material pertaining to the RR-33. The unit has proved excellent for its intended use, i.e., copying Base broadcasts. The only difficulty experienced to date has been in the use of the receiver in two-way contacts. In this method of working, the signal from the [redacted] effectively blocks the receiver, precluding [redacted].
With one exception, all of the RR-33's issued to date are being used [redacted] we have been using 231-D transmitters at [redacted] in the MCW mode. The results experienced have surpassed our expectations.
